STEAM Planning Tool

Directions: Working as a grade level team, begin planning your integrated STEAM project/unit. Specify the problem addressed and potential products you would utilize for students to demonstrate their understanding. Identify the knowledge and skills students need to address the problem, and in which course(s) student learning would be supported and practiced.

Specify Problem/Challenge:

Product(s):

Knowledge/ Skills Needed to Address Problem	**Science**	**Technology**	**Engineering**	**Math**	**Humanities**	**Language Arts**	**Visual Arts, Drama, Dance, Music, etc.**
